Section 1: Product and Company Identification

Gulf Engineering Co. LLC
611 Hill Street
Jefferson, LA 70121
Business: (800) 347-4749
Technical: (504) 602-1824

Product Name: Gessco™ Type A Vacuum Pump Oil*
Generic Name: High-boiling hydrocarbons
Synonyms: NA
Product Description: Vacuum pump oil
CAS # NA - blend
Date of Revision: 08/04/2006

The fourth digit of the product number designates the container size:

Gessco™ Type A Vacuum Pump Oil - 0 - 15 gallon

Gessco™ Type A Vacuum Pump Oil - 1 - 5 gallon

Gessco™ Type A Vacuum Pump Oil - 2 - 30 gallon

Gessco™ Type A Vacuum Pump Oil - 3 - 55 gallon

24-Hour Emergency Phone Number: (800) 424-9300 (CHEMTREC)

Section 2: Hazard Identification

Emergency Overview: Appearance: pale yellow liquid. Flash Point: 206°C (430°F). No known immediate health hazards.

OSHA Regulatory Status: This material is considered hazardous under the OSHA standard because it carries the occupational exposure limit for mineral oil mist.

Potential Health Effects:

Inhalation: Inhalation of vapors (generated at high temperatures only) or oil mist may cause mild irritation of the nose, throat, and respiratory tract.

Ingestion: Only slightly toxic if swallowed.

Skin Contact: Only slightly irritating to skin. Prolonged contact may cause defatting, dermatitis or oil acne.

Eye Contact: Minimally irritating to eyes.

Chronic Exposure: No information found.

Aggravation of Pre-existing Conditions: Pre-existing eye, skin and respiratory disorders may be aggravated by exposure to this product.

Target Organs: No information found.

Section 3: Composition / Information On Ingredients

Component	CAS #	Weight %	OSHA PEL	ACGIH TLV
Highly refined petroleum oils	mixture	100	5 mg/m ³	5 mg/m ³

Non-hazardous components may or may not be listed. Carcinogens are listed when present at 0.1% or more; components which are otherwise hazardous according to OSHA are listed when present at 1.0% or more. This is not intended to be complete compositional disclosure. See Section 15 for applicable states right to know and other regulatory information.

Section 4: First Aid Measures

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

Ingestion: Do not induce vomiting. In general, no treatment is necessary unless large quantities of product are ingested. However, get medical attention.

Skin: Remove contaminated clothing and shoes. Flush skin with plenty water then wash with plenty of soap and water. If irritation occurs, get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.

Eyes: Immediately flush eyes with plenty of water for at least 15 minutes, lifting lower and upper eyelids occasionally. If irritation occurs, get medical attention.

Note to Physicians: Emesis induction is generally unnecessary with high viscosity, low volatility oils such as this product.

Section 5: Fire Fighting Measures

Fire: Do not use a direct stream of water. Material will float and can be re-ignited on surface of water.

Explosion: Not considered to be an explosion hazard.

Extinguishing Media: Do not use a direct stream of water. Material will float and can be re-ignited on surface of water. Use water fog, 'alcohol foam', dry chemical or carbon dioxide (CO₂) to extinguish flames.

Special Precautions: In the event of a fire, wear full protective clothing and NIOSH-approved self-contained breathing apparatus with full facepiece operated in the pressure demand or other positive pressure mode.

NFPA Rating: Health - 0 Flammability - 1 Reactivity - 0 Other - NA

Section 6: Accidental Release Measures

Ventilate area of leak or spill. Remove all sources of ignition. Wear appropriate personal protective equipment as specified in Section 8. Isolate hazard area. Keep unnecessary and unprotected personnel from entering. Contain and recover liquid when possible. Use non-sparking tools and equipment. Collect liquid in an appropriate container or absorb with an inert material (e. g., vermiculite, dry sand, earth), and place in a chemical waste container.

Section 7: Handling and Storage

Protect container against physical damage. Store in a cool, dry well-ventilated location, away from any area where the fire hazard may be acute. Outside or detached storage is preferred. Separate from incompatibles. Containers of this material may be hazardous when empty since they retain product residues (vapors, liquid); observe all warnings and precautions listed for the product. Do not attempt to clean empty containers since residue is difficult to remove.

Section 8: Exposure Control / Personal Protection

Exposure Guidelines: Mineral oil mist: OSHA PEL 5 mg/m³ ACGIH TLV 5 mg/m³

Personal Protective Equipment:

Skin Contact: Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact.

Eye Contact: Use chemical safety goggles and/or a full face shield where splashing is possible. Maintain eye wash fountain and quick-drench facilities in work area.

Inhalation: Use NIOSH approved vapor respirator if exposure is unknown or exceeds permissible limits. A respiratory protection program that meets OSHA's 29 CFR 1910.134 or ANSI Z88.2 requirements must be followed whenever workplace conditions warrant respirator use. **WARNING:** Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.

Engineering Controls: A system of local and/or general exhaust is recommended to keep employee exposures below the Airborne Exposure Limits. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, Industrial Ventilation, A Manual of Recommended Practices, most recent edition, for details.

Section 9: Physical and Chemical Properties

Appearance	Pale, yellow liquid	Specific Gravity (g/mL)	0.89
Odor	Mild hydrocarbon	pH	NA
Odor Threshold	ND	Solubility in water	Insoluble
Freezing Point	-5°C (23°F)	% Volatiles	ND
Boiling Point	> 287°C (550°F)	Evaporation Rate	ND
Flash Point	206°C (430°F)	Vapor Pressure	6 mm @ 23°C
Lower Explosive Limit	NA	Vapor Density (air = 1.0)	ND
Upper Explosive Limit	NA	Viscosity	ND
Auto-Ignition Temperature	ND	log (Part. Coeff oct-H ₂ O)	ND
Decomposition Temp	ND		

Section 10: Stability and Reactivity

Chemical Stability: Stable under ordinary conditions of use and storage

Hazardous Decomposition Products: May form carbon monoxide, carbon dioxide and hydrocarbons when burned, pyrolyzed or heated to decomposition

Hazardous Polymerization: Will not occur

Incompatibilities: Strong oxidizers

Conditions to Avoid: Heat, flames and incompatibles

Section 11: Toxicological Information

Acute Dose Effects: Dermal LD50 >5.0 g/kg (Rat), non-toxic; Oral LD50 >5.0 g/kg (Rat), non-toxic

Section 12: Ecological Information

Environmental Fate: This product is an oil and does not readily biodegrade, although it does not bioaccumulate.

Ecotoxicity: No information found.

Section 13: Disposal Considerations

As a waste, this product as sold IS NOT considered a HAZARDOUS WASTE under RCRA (29 CFR 261).

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.

Section 14: Transport Information

Proper Shipping Name: Not regulated

DOT Hazard Class: NA

UN Number: NA

Packing Group: NA

Label: NA

CERCLA Reportable Quantity (RQ): None

Releases exceeding the reportable quantity (RQ) must be reported to the National Response Center (800) 424-8802.

This data provided for information only. The description shown may not apply to all shipping situations. Consult 49 CFR, or appropriate regulations to properly classify your shipment for transportation.

Section 15: Regulatory Information

TSCA Chemical Inventory: All of the chemicals in this product are listed on the TSCA Inventory.

TSCA Sec 4 Chemical Test Rule: None of the chemicals in this product are under a Chemical Test Rule.

TSCA Sec 8(d): None of the chemicals in this product are on the Health and Safety Reporting List.

TSCA Sec 12(b) Notices of Export: None of the chemicals in this product are on this list.

TSCA Significant New Use Rule (SNUR): None of the chemicals in this product are on this list.

SARA Sec 302 RQ: None of the chemicals in this product have a RQ.

SARA Sec 302 TPQ: None of the chemicals in this product have a TPQ.

SARA Sec 311/312: Acute – NO; Chronic – NO; Fire – NO; Release of Pressure – NO; Reactivity – NO

SARA 313 List: No chemicals in this product are reportable under Section 313 Title III and 40 CFR Part 373

CERCLA Hazardous Substances and corresponding RQs: None of the chemicals in this product are on this list.

RCRA: None of the chemicals in this product are on this list.

Clean Air Act: Hazardous Air Pollutants? NO **Class 1 Ozone Depletors?** NO **Class 2 Ozone Depletors?** NO

Clean Water Act: Hazardous Substance? NO **Priority Pollutant?** NO **Toxic Pollutant?** NO

This product is an oil as defined under Section 311 of EPA's Clean Water Act (CWA). Spills into or leading to surface waters that cause a sheen must be reported to the National Response Center, 1-800-424-8802.

Chemical Weapons Convention: None of the chemicals in this product are on this list.

Drug Enforcement Agency (DEA) CDTA: None of the chemicals in this product are on this list.

OSHA: None of the chemicals in this product are considered Highly Hazardous by OSHA.

FDA: NA

State Right-to-Know Lists: None of the components of this product are found on the Right-to-Know lists of California, New Jersey, Florida, Pennsylvania, Minnesota or Massachusetts.
